Agua de Jamaica

Ingredients

- 2 quarts water
- · 1 cup sugar
- 1 cup dried hibiscus flowers
- · Lime juice
- Cinnamon, ginger, allspice (optional)

Instructions

- 1. Put 4 cups of the water and the sugar in a medium saucepan. Add optional cinnamon, ginger slices, and/or a few allspice berries. Heat until boiling and the sugar has dissolved.
- 2. Remove from heat. Stir in the dried hibiscus flowers. Cover and steep for 20 minutes.
- 3. Strain into a pitcher and discard the used hibiscus flowers. Store the concentrate chilled until ready to make the drink.
- 4. Add the remaining 4 cups of water and lime juice to the concentrate.
- 5. Serve over ice with a slice of orange or lime.
